### **Question of Produce Legitimacy**

The following procedure will be used if a farmer's produce is questioned regarding its origin on his farmland:

- The person challenging a farmer's product legitimacy should first discuss the complaint with the Market Management.
- Should the matter not be resolved in this manner, then a signed complaint should be put in writing and given to the Market Management.

- The challenged farmer will be told by the Market Management of the complaint and informed that if the questioned goods are not produced by him, he should cease to bring them to the Market.
- If the farmer in question continues to bring the challenged produce and a second complaint is entered, the farmer is notified that an inspection will be made of the specific location listed on the Farmers Market application as to where such items are reportedly grown.
- If the complaints are such and the amount is sufficient, it is the discretion of the Market Management to make the recommendation that the farmer be removed from the Market.
- No portion of the Market fee will be refunded.
